

TRACKSIDE SERVICES

ARRIVE AND DRIVES

Conlin SpeedSports' Arrive and Drive Program offers serious racers a professionally prepared racing kart for a test day, race day or an entire race series. Just bring your safety gear and your competitive attitude! Everything else will be provided!

RACE PREP SERVICES

For kart racers that don't have the time, desire or inclination to maintain the kart they own, we can provide storage, prep and transportation for occasional races or an entire series.

TRACKSIDE SUPPORT SERVICES

Having over eight years of experience racing karts, Conlin SpeedSports has the knowledge and expertise to keep its customers on the track and ahead of changing track conditions. In addition to access to our traveling inventory of kart parts, our customers have ready access to tools, supplies and tuning advice.

ON-BOARD VIDEO SERVICES

Conlin SpeedSports' helmet cams offer the ability to show your friends the exciting view from the driver's seat!

BGR GRAPHICS

BGR utilizes a unique process to make your graphics stand out. By embedding metalflake into all of its graphics, BGR offers an incredible design that is sure to make your kart sparkle!

Conlin SpeedSports Karting Experience

Terms & Conditions:

- We currently serve Circleville Raceway Park (Circleville, Ohio) and New Castle Motorsports Park (New Castle, Indiana). Karting Experience is by appointment only with Conlin SpeedSports.
- A deposit of \$200 (refundable up to one day before the event) is required to reserve a session.
- Participant must be 18 years of age and provide legal proof of age.
- Participant will be required to sign a waiver easing Conlin SpeedSports, LLC, track owners and all other participants from responsibility for injury or death.
- Due to the confined nature of racing kart design, some driver size restrictions apply—please contact Conlin SpeedSports for details.
- Conlin SpeedSports, LLC reserves the right to terminate a session immediately for reckless driving, disregard for the equipment, discourteous behavior towards crew, officials or other participants. A pro-rated refund, if any at all, is at the discretion of Conlin SpeedSports, LLC representatives.

Conlin SpeedSports Karting Experience

servers who will be making their judgment on the driver completing incident-free sessions and appearing competent and comfortable in the SuperCan kart.

You know karting is where the pros got started...

You've driven the go karts at the local amusement center...

Even the track karts at the outdoor or indoor kart track left you wanting more...

Isn't it time to experience real karts on a real track with a real crew serving you exclusively?

Let Us Get You Out There

Conlin SpeedSports can provide you with the next level in karting experience with professionally prepared racing karts, support and instruction from team drivers. We want you to know why karting is THE training ground for today's top auto racers and understand the performance capabilities that today's sophisticated racing karts have.

Over the course of about 5 hours we will step you through a sensible progression that best matches your capabilities and goals. For

one fee we provide everything you need to experience high performance karting easily and safely as possible.

Off Track:

Before you hit the track we will provide you with:

- A basic introduction to the sport of karting
- Driving suit, helmet, gloves, rib vest and other protective gear (you may your own Snell 2000 or later helmet if you have one).
- Thoroughly familiarize you with safe operation of the kart(s) you will be driving
- Understanding of proper track etiquette, signals and expected behavior
- A preview and discussion of what you will be seeing, feeling and doing out on the track
- A team driver to walk the track with to learn lines, breaking points, driving techniques and other tips

On Track:

You will drive six 10 lap sessions in fully prepared and crewed racing kart(s) with a program that matches your experience and skill level:

Novice:

For those that have never experienced high performance driving they will be at the wheel a full racing kart powered by a 100cc Yamaha KT100 "SuperCan" engine making 12 horsepower and attaining speeds of 60 mph.

Experienced:

Drivers with some high performance driving experience will begin their session with the Yamaha Super Can kart and will be eligible to graduate to our teams' 125cc TAG engine producing 28 horse power and capable of speeds of 75mph. Progression to the TAG kart will be at the discretion of our ob-

During your transition from the SuperCan to TAG kart our team driver will get behind the wheel of the SuperCan kart and will lead you through your first TAG session. During this phase our driver acts as a pace car. You are encouraged to accelerate, brake and corner as aggressively as you want but under no circumstances are you to pass or bump our team driver. Such an infraction will require another such session before turning you loose on an open track with full TAG power.

Expert:

Experienced auto, motorcycle or kart racers may do all 6 sessions in the TAG kart depending on the depth of their experience (we may ask to see race results or My Laps records).

Video Services:

For a small additional fee we can mount an on-board camera to your helmet or kart and send you home with a video record of your karting experience to share with family and friends.

Our Objective:

We want to make the thrill and excitement of kart racing available to a whole new segment of motorsports aficionado. We believe all other concession-type kart operations don't even come close to the sensations of driving a racing kart designed purely for speed. We'll rely on our 8 years of kart racing knowledge and skills in racing preparation to allow our customers to maximize their track time and experience Karting as sensibly and safely as possible. We're serious about our racing but we're also serious about our fun.
